PROFILE

Ambitious Full Stack Developer with a solid foundation in React and Laravel. Experienced in building scalable web applications and student management systems. Passionate about clean code, open-source projects, and continuous learning in modern tech stacks.

WORK EXPERIENCE

E-commerce Platform

- Built a responsive online store for clothing, focusing on seamless user experience.
- Integrated features for product browsing, shopping cart management, and order processing.
- Managed the database to handle product inventory, categories, and user authentication.

Movie Streaming/Catalog App | React & APIs

- Developed an interactive movie application that fetches real-time data from external APIs.
- Implemented search and filtering features to help users find movies by genre or rating.
- Focused on creating a modern, high-performance UI inspired by platforms like Netflix.

Social Matching Platform

- Designed a responsive UI using React and Tailwind CSS.
- Conceptualized a platform to connect users based on interests.
